ADDENDUM #1

Issue Date: 03/23/04

SPECIFICATION NO. #04-079

FOR

Address Signs for County Engineer

Addenda (or addendum if singular) are written instruments issued by the County prior to the date for receipt of offers which will modify or interpret the specification document by addition, deletion, clarification or correction. Please acknowledge receipt of this addendum in the space provided on your bidding document.

Be advised of the following changes to the County's specification and bidding documents:

1. QUESTION: 2.5 states that *all signs will ship with 3/8 inch diameter holes as shown in exhibit "A"*. When looking at exhibit "A" (Rural Addressing Sign 6 inch width) the verbiage below the drawings indicates that *5/16 inch diameter holes are to be made in the blades as shown above*. Please provide clarification on which is correct.

ANSWER: All mounting holes shall be 3/8 inch.

2. QUESTION: Alternate Materials: 4.1 requests sign faces fabricated from #3860 white 3M Scotchlite high intensity pressure sensitive reflective sheeting or comparable materials. Is that the correct number for white 3M? If not, is the number wrong, or is the color wrong?

ANSWER: Our records indicate that the number listed is for 3M Scotchlite high intensity pressure sensitive reflective sheeting, color white. If you have an alternate product, please provide a sample with your bid for consideration.

3. QUESTION: Item #3, and Item #4 (8 ft. and 6 ft posts respectively): Should cost of hardware be included as part of the total cost for the post and hardware or should it be itemized out as post costing "x" dollars and hardware costing "x" dollars?

ANSWER: Yes; the cost of hardware should be included as part of the total cost for the post and hardware.

All other terms, conditions and requirements of the request remain the same as originally indicated in the document or as modified on previous addenda.

Kathy A. Smith
Assistant Purchasing Agent
